

A BUNCH OF BRIEFS
FROM OVER THE SEABALFOUR SLATED FOR PRIME
MINISTER OF ENGLAND.

Conservatives So Confident of Success That They Already Have a Ministry Formed—Serious Internal Dissension Feared in Japan—Fifty Died By Fire—Other Cable News

London, May 22.—The afternoon papers of this city yesterday devoted much space to the scare caused in certain circles by the report of the approaching dissolution of parliament. The Westminster Gazette says that the next conservative ministry has already been agreed upon at the Carlton

Rt. Hon. A. J. Balfour.

club. It is added that the Rt. Hon. A. J. Balfour will be premier. The Rt. Hon. Joseph Chamberlain is slated for the office of secretary of state for home affairs; the Marquis of Salisbury is likely to be the next secretary of state for foreign affairs, and Hon. George N. Curzon, at one time parliamentary under secretary for India, is said to have been selected for the office of secretary of state for India.

JAPAN'S GREATEST DANGER.

Internal Dissensions May Follow the Recent Diplomatic Defeat.

Tokio, May 10, via Victoria, B. C., May 22.—As soon as the government was informed of the determination of Russia, Germany and France to forbid the acquisition of territory by the Japanese on the continent a majority of the cabinet ministers assembled at Klot, and measures were taken to ascertain how far the menaces of the allies were seriously intended.

The Russian and French governments were firm in their declaration that Japan must renounce Manchurian territory, while the tone adopted by Germany was decidedly intemperate. When it became apparent that Japan had only her own resources to rely upon, the government devoted its energy to securing the best terms of accommodation. This, however, was divulged only to the ministers in immediate attendance upon the sovereigns. Almost from the beginning the emperor's advisers were in favor of submitting, with the solitary exception of Viscount Mutsu. It is almost certain the ministry will fall on account of the diplomatic defeat, and serious internal dissensions are looked for.

Critical Affairs in Corea.

London, May 22.—A dispatch from Seoul to the Globe says that affairs in the Korean capital are in a critical condition. The prime minister has resigned and the minister of the interior has asked the assistance of the foreign diplomats in administering affairs and preserving order. The police surround the residence of the king's father, Tai-Wan-Kun, formerly king regent and the leader of the anti-Japanese party, and entrance or exit from the residence is forbidden.

Fifty Perish in Flames.

St. Petersburg, May 22.—There have been several fresh fires of serious nature in various parts of the provinces. In the town of Kobueden 200 houses have been burned, and in the village of Ruzhany 250 houses. During these conflagrations a total of fifty persons were killed and many more injured. These fires naturally have caused severe distress in the districts in which they took place, and this distress continues.

Life Savers Rewarded.

Liverpool, May 22.—The officers and crew of the steamship Teutonic yesterday received the rewards given by President Cleveland for the rescue of the crew of the New York fishing schooner Josie Reeves in February last. Bruce Ismay, head of the White Star Line, made the presentations.

Arendt's Motion Adopted.

Berlin, May 22.—The lower house of the Prussian Diet yesterday, by a vote of 157 to 52, adopted the motion of Dr. Otto Arendt, urging the government to take steps in favor of an international settlement of the currency question with the view of securing international bimetalism.

Franz Von Suppe Is Dead.

Seattle, Wash., Bank Suspends.

Washington, May 22.—Mr. Eckels,

controller of the currency, yesterday received a telegram stating the Merchants' National bank of Seattle, Wash., had suspended. The bank's capital was \$200,000, and at the time of its last report it had assets amounting to \$635,000 and a surplus of \$25,000. One of the main causes of the bank's failure was too great holdings of real estate and securities upon which it could not realize. The bank was a government depository.

ILLINOIS LEGISLATURE.

Senate Reconsiders a Somewhat Important Action.

Springfield, Ill., May 22.—The senate yesterday reconsidered by a vote of 22 yeas to 16 nays the order to commit Frank H. Cooper of Chicago to jail for his refusal to answer the question propounded by the committee appointed to investigate department stores. Little's bill to repeal the anti-trust law, which was once defeated, came up as special order on its passage. The bill failed to pass by a vote of 6 yeas to 6 nays.

Speaker Meyer called the house to order. Representative Lowenthal of Cook county introduced a bill which is almost identical with the Miller gas bill vetoed by the governor. Representative Kaiser introduced a bill calling for an appropriation of \$10,000 to aid Fred A. Cook in his proposed expedition to the South Pole. After discussing the bill making appropriations for the Chester penitentiary for nearly an hour the house took a recess until 2:30 o'clock pending the discussion.

On reassembling Mr. Lowenthal introduced a bill to regulate the granting of rights and special privileges for lighting purposes by cities, villages, and incorporated towns. It was advanced to second reading without reference. Mr. Merriam's resolution to prosecute saloon-keepers who sell liquor to inmates of the home as are habitual drunkards was adopted. Mr. Berry's bill creating passed. The institute is to consist of three delegates from each county of the State. Some minor appropriation bills were advanced to third reading.

FROST DOES DAMAGE.

Portions of the Country visited by the Farmers' Enemy.

Fairbury, Ill., May 22.—Another heavy frost visited this section Monday night, doing considerable damage to everything, it being cold enough to form ice of good thickness. The farmers are getting much discouraged. The frost was general throughout the state.

Fort Wayne, Ind., May 22.—A heavy frost yesterday morning destroyed nearly all the tender vegetation in this vicinity not killed by the three severe frosts of last week. In the low lands corn, potatoes, peas and beans are almost a total loss. Grapes, strawberries and other fruits are greatly damaged. Farmers and gardeners are discouraged.

Omaha, Neb., May 22.—More damage was done Nebraska crops by Monday night's frost than at any time this season. In Dodge county, where corn was a foot high, it was all killed and must many valleys in Northern Nebraska, be replanted. This was the case in Corn has made little or no growth, owing to the cold weather.

Rochester, N. Y., May 22.—Frost did widespread damage in western New York Monday night. The mercury registered in the twenties and the entire grape and peach crop is said by farmers to be destroyed.

Marshalltown, Ia., May 21.—There was a severe frost this morning, with the mercury at the freezing point. The ground was very dry, however, and the damage is nominal. Drought conditions prevail in this section.

Eighty Cents Paid for Wheat.

Warren, Ohio, May 22.—As a result of the heavy frost here a sale of a carload of wheat at 80 cents a bushel to Homer Baldwin, of Youngstown, was made yesterday.

INCOME DECISION
CAUSES A DEFICITTHE CONSEQUENCES OF THE
COURT'S RULING APPARENT.

Secretary Carlisle's Estimate Upset—The Shortage Will Be \$75,000,000—Comments of London Papers On the Decision—Talk of Testing the Tariff Law's Constitutionality.

Washington, May 22.—The effect of the supreme court decision in the income tax case is the one overshadowing topic of conversation in Washington. Its effect on the treasury is not difficult to determine. The government has been knocked out of revenue variously estimated at from \$30,000,000 to \$50,000,000, of which \$15,000,000 was included in the 1894-95 estimates of the commissioner of internal revenue. That much is a known fact. The estimated internal revenue for the year ending June 30 next was \$165,000,000. It will lose \$15,000,000 from income tax, and indications point to an \$8,000,000 further disappointment, that much of a falling off being in sight. Instead of \$165,000,000 the internal revenue receipts will approximate \$142,000,000, a loss of \$23,000,000. Customs receipts for the year will approximate \$153,000,000, instead of \$160,000,000 as estimated, a shortage of \$7,000,000 in that quarter. Then the expenditures promise to run ahead of the estimates \$7,000,000 for the year, making a net result of \$37,000,000 over and above the \$20,000,000 deficit estimated by the secretary of the treasury in his report to congress last December, or a total shortage of approximately \$57,000,000 for the year, instead of the \$20,000,000 officially calculated.

INCOME-TAX KNOCKOUT.

Comments of London Newspapers on Supreme Court Decision.

London, May 22.—The London newspapers very generally comment upon the decision of the supreme court of the United States declaring the income tax unconstitutional. The editorial in the Times on the subject says: "As things stand, the weight of authority falls upon the same side as the weight of numbers. The practical result is that direct taxation must fall upon the citizen in direct proportion to his voting power, without reference to the amount of his property."

The Chronicle says: "The loss of \$6,000,000 revenue must still further derange American finances, but the millionaires have escaped the net and the people generally will be compelled to make up the deficit. It is a strange comment on American democracy and on the limitations of the American constitution."

Another Big Legal Battle Likely.

Washington, May 22.—There is much talk of testing the constitutionality of the tariff law, as altered by the omission of the income tax, and there seems to be no doubt that cases involving this question will be brought before the court as soon as possible. The importers who find the duties on the goods they import raised by the law, and the whisky men with the internal revenue tax increased, may join together to test it, while the manufacturers who find the reduction of duties in almost every schedule of the law interfering with the sale of their products, will probably combine to fight the tariff law. A big legal battle will likely result.

Will Be No Extra Session.

Washington, May 22.—There is not thought to be any foundation for the report that the President will call an extra session of congress on account of the failure of revenue consequent upon the decision of the United States Supreme court in the income tax case. Secretary Lamont said yesterday that he understood that the condition of the treasury is improving, and he was confident that the government would be able to maintain itself until congress, at its regular session, can provide the necessary revenue.

Thinks Taxing Powers Wrecked.

Washington, May 22.—Senator Morgan, of Alabama, one of the ablest constitutional lawyers in the senate, speaking of the recent income tax decision, said yesterday: "The decision leaves the taxing powers of the government in a state of wreck. It will require a long time for us to gather up the fragments. Principles of taxation which were considered well settled are torn up by this decision."

BY NITRO-GLYCERINE.

Fourteen Men Killed by an Explosion at San Francisco.

San Francisco, Cal., May 22.—A terrific report and concussion, which was distinctly felt all through the city and in towns around the bay for a distance of forty miles, and which was at first believed to be caused by an earthquake, but proved to be an explosion in the nitro-glycerine and mixing houses of the California powder works at Pinole, across the bay, was felt here yesterday afternoon. The crew of the glycerine house, four in number, and the foreman of the mixing house, were all killed, as were nine Chinamen working in the latter department. The killed are as follows:

DOUNE, D. A., of Pinole.
JOHNSON, CLARE, foreman glycerine-house.
MINAUCH, M., of Oakland.
TAYLOR, W. D., foreman mixing-house.
VEIGAS, C., of Martinez.
NINE CHINAMEN.

The explosion occurred in the nitro-glycerine house and was probably caused by the Chinamen dropping a can of the explosive.

New Plan for Battleships.

Washington, May 22.—The board of naval chiefs has decided to build the two new battle ships with double-stored turrets, to place thirteen-inch guns in the lower turrets and eight-inch guns in the upper turrets.

PLAN A BIG STRIKE
AGAINST SWEATING

MOVEMENT TO ORGANIZE GARMENT WORKERS.

Sweat Shop System and Other Evils To Be Eradicated—Steel Workers Forming a Rival to the Amalgamated Association—Miners Make a Hard Fight—Other Labor News.

New York, May 22.—What promises to be the biggest strike ever known in the garment making industry in this city is impending over the question of the weekly wage system. The operatives demand that manufacturers and contractors renew the existing agreement with the Brotherhood of Tailors, and grant the weekly wage system to other garment workers' organizations. Demands will also be made for an increase of wages in some instances. The strike is not likely to be ordered before Sept. 15. Since the last strike the manufacturers have sent out part of their work to the smaller cities in this state, they have been able to have a good deal of it done in sweat shops at low prices, under the piece work and task system. It is expected to stop this cut-throat business by a union of all garment workers in one general organization.

FIGHT OVER SILVER.

Free-Coinage Resolutions Tabled by Iowa Federation of Labor.

Ottumwa, Iowa, May 22.—The State Federation of Labor closed its session in this city yesterday after a red-hot fight on silver, non-union mines, and the socialistic plank adopted by the national federation at Denver. The resolution in favor of the free coinage of silver at the ratio of 16 to 1, was laid on the table and the question referred back to the various unions for settlement. The socialistic plank met the same fate. The date of holding the next convention was changed from the third Monday in May to the second Monday in December. The Union Standard, of Des Moines, was made the official organ of the federation. Among the resolutions was one suggesting a change in the Australian ballot, making it possible for the voter to express an opinion on matters of public interest for the guidance of legislators and officials; and one denouncing cheap labor in the guise of charity. L. T. Jones of Burlington was elected president.

WILL TRY TO RAISE WAGES.

Employees of a Big Steel Works Form a Secret Union.

Pittsburg, Pa., May 22.—An organization embracing the skilled employees of five large steel plants in the Pittsburg district is said to have been secretly formed to secure an advance and uniform rate of wages and an improvement of the steel-workers' condition generally. The movement is represented to take in the Black Diamond steel works, Howe, Brown & Co., La Belle steel works and Anderson, Dupuy & Co., and the Crescent Steel works. Altogether they employ about 15,000 men. All these works are now running on a non-union basis and are said to be paying less than the Amalgamated scale.

Miners Make a Hard Fight.

Pittsburg, Pa., May 22.—The miners of this district are making a desperate fight. Yesterday the officials succeeded in calling out about 1,500 men on the Charlers branch of the Panhandle Railroad, and all the mines of that section are closed. The mines on the Wheeling division of the Baltimore and Ohio Road are running in full, however, and it is generally conceded that the strike is lost. But the officials of the United Mine Workers are busy trying to get the men out along the line of the Baltimore and Ohio and Thursday they will attempt the greater feat of bringing out the miners of the New York and Cleveland Gas Coal Company, who are at work at 45 cents a ton under contract.

B. of R. T. Convention at Galesburg.

Galesburg, Ill., May 22.—The convention of the Brotherhood of Railway Trainmen yesterday listened to speeches from Grand Master Frank Sargent and Grand Secretary F. W. Arnold, of the Brotherhood of Locomotive Firemen, urging closer federation of railroad labor organizations. Grand Master Wilkinson desired to withdraw his resignation, but was not permitted to do so. It is likely he may yet decide to enter the race for the grand mastership again, in which case there will be a lively fight.

Reduction of Ten Per Cent.

Leavenworth, Kan., May 22.—The Home-Riverside Coal and Mining Company has posted notices that June 1 a reduction of 10 cents on the ton will be made in the price of mining, as well as a 10 to 15 per cent cut in the wages of all "company men" paid a stipulated sum per month. It is not probable that there will be a strike as the men are too poorly situated.

Miners to Meet May 29.

Columbus, Ohio, May 22.—A national convention of miners is to be held here May 29.

MINERS SUFFOCATED.

Carelessness of a Comrade Results in Four Deaths.

Wheeling, W. Va., May 22.—By an explosion in mine No. 4 of the Monongah Coal and Coke company yesterday four miners were killed by suffocation, and quite a number of others were seriously affected by the smoke. The explosion was caused by a Polish miner carelessly igniting a can of powder. An inquest is being held today. The Monongah mines are the principal works in the Upper Monongahela coal fields, and the company is headed by ex-United States Senator Camden.

BIG BOAT LA GOSCOGNE IS SAFE
But Is Disabled.

New York, May 22.—The steamer, La Goscogne has been sighted off Fire Island. She signaled for two tugs, as she is disabled.

MICHIGAN SOLONS.

Senate Passes a Bill Providing Death Penalty.

Lansing, Mich., May 22.—The house yesterday, by a vote of 53 to 9, passed the Robinson bill reducing railroad passenger fares in the upper peninsula from 4 to 3 cents a mile, and the bill permitting certain beneficiary societies to continue their business of providing death and sick benefits without employment of the lodge system. The Waite bill, known in liquor parlance as anti-treating bill, was agreed to in committee of the whole. It provides a penalty for inviting and treating persons to liquor in saloons. The house also agreed to bills appropriating \$1,000 annually for the support of a state weather service; amending and strengthening law for punishment of persons soliciting insurance in authorized companies, and providing for a closed season during the month of November for fish in the great lakes. The Kelly representative apportionment bill was defeated on third reading by a vote of 41 to 41.

The senate defeated the Shaw newspaper libel bill on its final passage by a vote of 16 to 10. The measure provided that juries in bringing in verdicts in libel cases should state separately the item of damage to business and that to the feelings of the complainant, and that the amount of damages to the latter be limited to \$50,000. The fight over the university special appropriation bill is to be renewed at the other end of the capitol. The senate, by a vote of 19 to 12, passed the Smalley hanging bill, which provides death by hanging for the crime of murder in the first degree by means of poison, or in attempting or perpetrating rape, arson, robbery, or burglary.

EVIDENCE OF FOUL MURDER.

Two School Children Assassinated in Missouri.

St. Joseph, Mo., May 22.—Ada and May Wolfenberger, aged 16 and 10 years respectively, daughters of the proprietor of the Midway Hotel of Oregon, disappeared Friday last under mysterious circumstances. Yesterday a fisherman using a seine in the Missouri river brought up the body of the eldest girl and the indications are the body had been in the water two or three days. The arms of the girl were pinioned behind her and her limbs were bound together with a strong cord. The body of the other daughter has not been recovered, although the waters of the Missouri have been dragged. The girls started to school in the morning and that was the last seen of them by their parents. So far no one is known to have seen them in company with anybody. The Missouri river is five miles from Oregon and the girls could hardly have walked that distance without some one recognizing them, as they were well known in the vicinity. Officers have followed up several clues but no arrests so far have been made. The residents of the vicinity are greatly excited at the evidence of this foul murder, and should the perpetrators be discovered they will certainly be lynched.

Coroner Suspects Foul Play.

Birmingham, Ala., May 22.—It is now almost certain that five lives were lost in Sunday's fire at Gate City. Pat Wood's body was discovered the day of the fire. Yesterday another search of the debris of Pant's Hotel was made and a lot of charred human bodies were found. They are believed to be those of two young men and their Pittsburgh Saturday. The men had come to work in the Alabama rolling mill and were strangers. No one knows even their names. Coroner Dusenberry suspects foul play.

Bray Explains Waller's Case.

Washington, May 22.—Paul Bray, stepson of ex-Consul Waller and his co-partner in the concession in Madagascar, was at the State Department yesterday and had an interview with Acting Secretary Uhl. The department is making a careful examination of the merits of his claim for reparation, and a full transcript of Bray's statement will be forwarded to Ambassador Eustis to serve as a basis of negotiations with the French government.

Gold Is Found in Arkansas.

Fort Smith, Ark., May 22.—A quantity of gold-bearing sand was found in a well in the heart of this city yesterday. Prospectors will determine the extent and value of the find. Most of the property adjoining is the property of the school board, and if the find proves to be rich the school fund will be greatly swelled. Property on which the gold was found was part of the abandoned military reservation which was donated to the city ten years ago.

Still Selecting Delegates.

Springfield, Ill., May 22.—Democrats of Sangamon county yesterday selected twenty-seven delegates to the state convention June 5. Resolutions were adopted instructing the delegates to vote in favor of the free coinage of silver.

Lacon, Ill., May 22.—The democrats of Marshall county in convention was divided on the question of free coinage of silver on a 16 to 1 basis, and the delegates appointed go uninstructed.

Awarded Big Damages.

Ogden, Utah, May 22.—The jury in the case of Robert Murdoch against the Union Pacific railway has given Murdoch a verdict for \$40,000 damages. The plaintiff lost both legs while acting as brakeman for the company. An appeal will be taken.

Illinois Doctors Convene.

Springfield, Ill., May 22.—The forty-fifth annual meeting of the Illinois State Medical Society convened here yesterday for a three days' session. There is a light attendance.

Hoeffer Brothers' opera house block, \$4,000.

Vivian Hotel, owned by James Spencer, \$2,000.

Albert Koed's saloon and dwelling, \$4,000.

Other buildings, \$3,000.

The guests in the Vivian Hotel narrowly escaped with their lives and some of them were more or less injured but none severely. The loss is partially covered by insurance but to what extent is not yet known.

No G. A. R. Posts to Be Present.

Green Bay, Wis., May 22.—Commander-in-Chief Lawler of the G. A. R. said last night: "I can safely say there will be no Grand Army posts at the dedication of the Confederate monument in Chicago Memorial day. I have not cared to rush into print on this matter, but I am on the side of the Grand Army on this question, and although there is no objection on my part to the ex-Confederate soldiers erecting such a monument, I can tell you now that no G. A. R. posts will participate in the dedication ceremonies."

Favor Free Coinage.

Milwaukee, Wis., May 22.—The international convention of horsehoes put itself on record yesterday as strongly favoring the free coinage of silver. The preamble of the resolution adopted recites that all the hard times of the past two years have been caused by the demonization of silver, and that to this cause was due the compulsory idleness of 2,000,000 workmen.

MAY CALL FOR NEW MEN.

Storrey Wants New York Presbytery to Have a Voice in Nominations.

Pittsburg, Pa., May 22.—The fifth day's session of the presbyterian assembly was opened yesterday by a devotional service led by H. N. Hibbard of Chicago. The home mission department showed that in the quarter century since the reunion of the two branches of the church the annual receipts had grown from \$232,430 to the sum of \$324,529 and the missionaries from 1,232 to 1,731. From the women's boards the sum of \$290,623 was received; from the churches, \$257,339; from bequests, \$234,414, and from individual donors, \$47,390. The year was closed at the end of March with a debt of \$34,850. Over \$16,000 of this was charged to the interest account and the aggregate was swelled by \$50,000 on account of the work of missions and education among the Indians, more than half of it being due to the fact that recent assemblies directed that all subsidies from the government be refused. Mr. George E. Sterrey of New York moved that nominations for the home mission board be referred back to the committee so that the New York presbytery might be heard on the subject. Temporarily the motion was laid aside.

WARM TIME AT CHICAGO.

Bulls and Bears Again Wrestle on the Board of Trade.

Chicago, May 22.—The wildest commotion prevailed on the board of trade yesterday, as within fifteen minutes the wheat market broke from 72½c to 71½c per bushel. The early sales were at 72½c as against 73½c last evening, and due entirely to the damage reports almost everybody wanted to buy. This active demand sent the market booming to 74½c, when all at once a big plunger dumped 500,000 bushels on the crowd. Then came the excitement. The price dropped 2 cents almost at once. A calm followed, either through exhaustion or a readjustment of the market conditions. Then, as it got along toward noon, the tone improved and a rally sent the market up to 73½c, a gain of 2c. Good buying followed the break. Closing prices were 72½c May; 73½c July, 73½c September.

Oddfellows Dedicate Their Temple.

Philadelphia, May 22.—The new and magnificent \$1,000,000 temple of the Odd Fellows, located at the corner of Bond and Cherry streets, was dedicated this afternoon with considerable pomp and ceremony. The dedication was preceded by a grand parade, over twenty thousand men being in line. Every lodge within 200 miles of the city was represented in the first division, while in the second were the grand lodge officers of all adjacent states, attended by large escorts. No less than 100 bands furnished music for the various divisions. The dedicatory exercises were according to the ritual of the order, Grand Sire John M. Stebbins, of Rochester, N. Y., formally declaring the structure dedicated to the purposes of odd-fellowship.

Washington, May 22.—The official service of Lorin M. Thurston as Hawaiian Minister to the United States closed when Frank P. Hastings presented to the State Department his credentials which had just been received as Charge d'Affaires.

Gen. Cogswell Dead.

Washington, May 22.—Representative William Cogswell, of Massachusetts, died shortly after 1 o'clock this morning after a long illness. In 1886 he was elected to congress from the Sixth Massachusetts district, and has served continuously since.

SOUTH MAIN STREET IS IN BAD SHAPE

DISCUSSION HAS BORNE NO
FRUIT.

Pavers and Anti-Pavers Have Not Yet Reached an Understanding and a Third Element Prefer Macadam—Uniform Charter Clause Advocated as It Would Lighten the Expense

"What shall be done with South Main street?"

That is a question that has been often asked of late, and is still being discussed by interesting property owners who will have to pay for the improvements as well as by the general public, who frequent that thoroughfare. Ex-Sheriff J. L. Bear, who has been circulating a petition securing signatures favoring the improvement, is now in Madison as a jurymen in the United States court, and will be absent some days. Before leaving the city he had obtained a number of signatures to his petition, but not a majority of the property owners. Many who favor the improvement refuse to sign the petition until the common council adopts that portion of the uniform charter law, which provides for the issuing of bonds for such improvement, and providing for their payment in installments, thereby making it more easy upon the property owners. Whether such action will be taken by the council or not remains to be developed. On the other hand a counter petition is being circulated, opposing the paving of the street, which is being signed by a large number, and possibly a majority of the resident owners will sign in case some plan is not adopted for the payment of the improvement similar to that provided in the uniform charter.

Street in Bad Shape.

Everyone who drives over South Main street complains on account of the wretched condition of the street, claiming that the street car tracks, occupying the center of the roadway, are way up above the street surface, endangering and threatening injury not only to vehicles of all kinds, but to individuals as well. Besides this, the street itself is full of holes and ruts, and that when it rains and the sprinkling wagons let on water freely, there is a top dressing or mucky substance on the surface which takes many hours to dry.

A few interested property owners insist that it would be better and cheaper to macadamize the street, procuring crushed stone from Baraboo. This they claim, with occasional repairs, and would last longer than the cedar blocks, and would make just as smooth roadway if properly put on and with a heavy roller. However, it is evident, that, in order to avoid some heavy damage suit, the city will be compelled to do something towards bettering the condition of the street before the season advances much farther.

An O'er True Tale

Is a tale overdone. A harrowing tale is a tale a farmer tells. A sorrowful tale is one told by some of our "first citizens" to their family after trying to ride a bike. A dog's tail—but that is another story, a tale told by a wag.

This tale is still another. We have an overload of real estate and we are going to unload. We offer a nice place, house, barn, well, some nice fruit and nearly three acres of land in the city for \$1,400 easy payments, the land alone is worth \$1,500 the buildings \$1,000.

We offer a nice little home with barn, city water, and other desirable features, in the heart of the city for \$1,300.

We offer a good new six room house with very large lot, well located for, \$1200.

We are building a very nice home, very central and beautifully located. We will sell it at \$250 less than it is worth.

BRIEF BITS OF LOCAL NEWS

THERE's one thing certain. No barefooted people will be going around in Janesville this summer. Shoes are so cheap that a person can work only half time and wear just as fine shoes as if he worked all the time. We are selling the best makes there are at 50 cents on the dollar—half price, and they are the finest lot of gents', ladies' and misses' shoes ever shown. \$12,000 worth from Fond du Lac; \$18,000 worth of our own stock. \$30,000 worth to select from. Where can you find such another selection at 50 cents on the dollar? Becker & Woodruff.

THERE is not a person in the town who has been near our store but will tell you we have had the shoe trade of Janesville since last Saturday morning. Never were so many shoes sold in the same length of time. Yesterday we had people from Beloit, Evansville and Madison, who purchased and were delighted with the bargains. Also sold five pairs of fine shoes to go to Chicago. We are in it to stay. Will put on sale 1,500 pair in a day or two from one of the best factories in the United States. Winslow & Lowell.

OUR sale since March 1 of that celebrated North stock has been a howling success. We have been pleased with the increased trade and our customers have secured bargains in fine shoes never before shown in this market. We have a considerable quantity left and we can always go the boys one better. The season promises to be an interesting one to shoe buyers and we promise to furnish our full share of the pleasure. Brown Bros. & Lincoln.

We are like the fellow who built the house upon the rock. The winds and storms have come, but we stand as firm as we did the day we opened this stock, and our trade is increasing all the time. We interfere with no one, simply are selling our own shoes, and whenever anyone in this or any other town can give as good a shoe as we are selling for 50 cents on the dollar they can make the sale. It's something can't be done. We have gone right to the bottom and no one can get underneath us. Becker & Woodruff.

THREE men came into our store yesterday at the same time. Each one of them purchased a pair of those patent leather shoes at \$1.50 a pair. Stop a minute. Think of it. A hand-sewed, patent leather shoe at the price of a stoga working shoe. Recollect the sizes are 5, 5½, 6 and 6½. You can't come too quick if you can wear the sizes. Don't delay. They are going out like hot cakes. Brown Bros. & Lincoln.

AMERICANIZED Encyclopedia Britannica, containing four thousand more subjects than the English edition. A library of itself, in ten large octavo volumes, endorsed by all who have consulted it. Price of ten volumes cloth, \$18.00; in law sheep \$22.00. Call and examine it at Sutherland's book store.

We pay particular attention to laundering ladies' clothes, such as waists, skirts, coats and also pillow shams, etc. We have the finest lady ironer in the state and she looks after this class of work exclusively. Our chromos are all on our work, none on the wagon. Janesville Steam Laundry.

We are more convinced than ever that "competition is the life of trade." Heretofore we have been alone in pushing the buggy business; now that others have entered the field, people look around, and we never fail to sell when there is a comparison. Wisconsin Carriage Top Co.

D. D. MAYNE, superintendent of schools, Janesville, Wis., "I have carefully examined the new Cyclopaedia, of D. Appleton & Co.; I know of no better work in existence. Personally I prefer it to all others." May be seen at King & Skelly's bookstore.

A good article will always bring a good price. We have experienced no trouble in selling 50 per cent more buggies this year than last, and that when other leading buggies have been in the market daily. Wisconsin Carriage Top Co.

THE longer we keep at it the better we like it, but it's awful tiresome waiting on so many customers in a day. Fifty cents on the dollar brings them from all directions. Never before has Janesville been such a centre for shoes. Becker & Woodruff.

WE have joined the procession and commenced cutting prices. Not an article in the house but what has been visited with the knife. \$25,000 worth must be sold. Sale opened this morning. Frank Baack.

WHEN we say 50 cents on the dollar we mean a shoe that cost \$1 at the factory, we will sell for 50 cents, and so on up, or in other words one-half factory price. We'll leave to your own judgment. Becker & Woodruff.

No difference what shape you are we guarantee to fit you, make this a special department. Odd shaped men and boys fitted in our sacrifice sale just the same. Frank Baack.

SOME of the coal that is sold at the low price has been on the docks for the past ten years. When you want fresh coal look at ours. Janesville Coal Co.

SPRING overcoats no cheap stuff, but coats that cost \$10 to \$18 now going here, 75 of them at \$6 each. Frank Baack.

We are preparing now for a special sale of trimmed and untrimmed hats next Saturday. M. A. Morrissey & Co.

We have no chromos on our wagon but we have on our work. Janesville Steam Laundry.

ALL the late style hats at M. A. Morrissey & Co's.

MILTON JUNCTION, May 21.—At the meeting held Saturday night at P. of H. hall to consider the matter of incorporating the village of Milton Junction, the vote of the meeting stood two to one against incorporation. Burdick and son Merton visited Stoughton Sunday and Monday.

THE NEWS OF EMERALD GROVE

Entertainment Friday Evening—Plans For Memorial Day—Frost Did Damage.

A LECTURE will be given at the Congregational church, Friday evening May 24, on the subject of "Free Coinage of Silver by the United States," under the auspices of the Rusk Lyceum of Janesville. Admission 20 cents. All under 15 years of age 10 cents. After the lecture the Ladies' Aid Society will serve strawberries and ice cream.

EMERALD GROVE, May 21.—After the entertainment on Friday evening, the ladies of the church will serve ice cream and cake. Come prepared to stay. Ladies please bring cake. The continued cold and frosty nights have cut "garden sass" to the ground many times. Some early potatoes and corn will be replanted. About one quarter of a berry crop is all that is promised. Dr. Mills set a broken arm for Miss Lena Kreig last week. She had the ill luck to fall from a hammock. On Thursday, May 20, Memorial day will be observed in an appropriate manner. J. C. Bartholf of Janesville, will deliver the address. Martial music will be obtained for the day. A good program has been prepared and the public are invited. The Rusk Lyceum club of Janesville, will discuss the coinage of silver here Friday evening of this week. A small admittance will be charged. So prominent a subject as this should draw a full house. Full cream cheese at Gillies & Jones only 10 cents per pound. This week Saturday will be "trimming up day" at the cemetery. Let the people all come and help clean up the grounds. Those attending the Broadhead convention Tuesday and Wednesday of this week are, Rev. Hammond, Misses Abbie McArthur, Mary Hanson, Messrs Brayton, Smith and Rush Inman.

A WEEK'S HAPPENINGS AT LIMA

Union Memorial Services at the Church Monday—Other Items.

LIMA, May 21.—Rev. J. H. Bray was the guest of Mrs. Carrie Sax the first of the week. Mrs. Franklin Gould returned from Michigan last Friday. Her daughter is very little better. Alton Cowles was out from Milwaukee for a short time last Thursday. M. R. Doane, of Rutland, is painting Miss Johnson's house and is otherwise improving the appearance of the place. S. S. Burnham, of Elkhorn, spent Sunday at E. Barker's. Alvin Brown's little girl is sick with whooping cough. There will be union memorial services at the U. B. church at 2 p. m. Sunday. All are cordially invited. Miss Lulu Mills visited her sister, Mrs. Richmond, last week. Mr. and Mrs. G. W. Stetson, of Orford, visited their son, Dr. R. H. Stetson, last Sunday. Misses Carrie Johnson and Ella Barker visited Janesville Thursday. Mr. and Mrs. A. L. Trufant of Mora, are visiting relatives here. Miss Lydia Child entertained her son Fred and wife of Monroe yesterday. Miss Pollard of Edgerton spent last Friday with Mrs. William Waterson. The social at Dr. Stetson's last Friday evening was quite well attended, despite the stormy evening something over three dollars was cleared. Rumors of two weddings are being passed around and it seems as though we could almost hear the bells ringing. Mr. Starke of Milton college spent Saturday with the Misses Stetson. Miss Ethel Stetson takes part in an entertainment in Milton this evening. Mrs. VanHorne called on her cousin L. A. Chapman Saturday. Martin Gould left on the 4:30 train Monday for a brief sojourn some where in the western part of the state.

B. H. Bowman: Pub. Enquirer, of Bremen, Ind., writes: Last week our little girl baby, the only one we have, was taken sick with croup. After two doctors failed to give relief and life was hanging on a mere thread, we tried One Minute Cough Cure, and its life was saved. C. D. Stevens.

JOHN KELLY'S IDEA OF SULKIES The One Wheel Scheme May Be Feasible He Said.

The New York World has interviewed John Kelly in regard to the new scheme of a one wheel sulky and quotes him as follows:

"John Kelly, the well known track driver, who gave Directum his record of 2:05½, and drove this stallion in his great races in 1892, will have a public stable hereafter at Fleetwood. To a world reporter the other night he gave some particulars about the new sulkies. "Two or three inventors are figuring on a one-wheel pneumatic sulky," said Mr. Kelly. "In 1892 the pneumatic sulkies spread over the country like wildfire, and the result was that nearly every trotting and pacing record was reduced. Arion's 2:10½ as a two-year-old is about the only mark that was not cut down, and it shows what a great two-year-old he was. The champion two-year-old colt last season was Oakland Baron, who went in 2:14½, against time at Nashville. The pneumatic sulky was so close to the bicycle in its construction that it naturally set inventors calculating to adopt the bicycle in some way as a racing contrivance to be drawn by the horse. A one wheeled sulky seemed to be the ideal general decided on.

"Monroe Salisbury's string was in great form that season, and as I was winning races at every meeting the inventors naturally sought me out. I have examined some queer contrivances. One Buffalo chap showed me a one-wheel sulky fashioned of barrel hoops and string, a rough looking device, but it showed he had the main idea all right. The principle is a small rubber-tire wheel hitched close to the horse, with the driver's seat well forward, so that his feet will be on either side of the horse's quarters. It is claimed that when the horse is speeding the wheel, horse and man will be so perfectly balanced by the rigid shafts and the forward seat as to make a perfect union. The makers claim that there will be no danger of an upset or of the horse being thrown out of his stride at the turns; in fact that it will increase the speed of both trotters and pacers fully two or three seconds to the mile."

The new sulky has a pneumatic tire wheel, with a high seat resembling the ordinary bicycle seat in its mechanism. It is attached by solid steel rods to the shafts. The traces are short and the shafts are given no play at all, so the wheel will run smoothly and be as easy to ride as an ordinary sulky. There is no danger of the hoofs striking the wheel, and it is claimed that the sulky helps the horse to keep an even and well-balanced gait. The axle has ball bearings, like a bicycle.

ON Daniels point, one of the most beautiful spots on the shore of Lake Winnebago, there are camped at present a score of Chicago cigarmakers. They are all union men, some of them enjoying a weekly benefit from the union. Being out of work one of their number conceived the idea of going to Lake Winnebago for an outing. Their issues were pooled and "ransit was made by tramp methods. Tents were rented here and now the colony is snug and comfortable.

Just before the evening performance of Hall's circus at Kaukauna a balloon ascension with parachute descent was to have been given. When everything was in readiness the balloon shot upwards a few hundred feet and soared over the Fox river with the aeronaut sitting on the trapeze. REV. MR. KAEMPFLEIN CALLED TO TOLEDO

JANESVILLE PASTOR GETS A
FLATTERING OFFER.

The Congregation Includes About Three Hundred Families and the Church Is a Fine One—He Has Not Yet Decided Whether or Not He Will Accept.

Rev. George Kaempflein, pastor of St. John's German Lutheran church, received a telegram Sunday night informing him of his election as pastor of St. Luke's church in Toledo, O.

This church is one of the largest in this district, having between two and three hundred families connected with it, while the Sunday school has a membership of five hundred children. The church is situated on one of the city's most prominent streets, and is in a prosperous condition.

Rev. Mr. Kaempflein, who has been connected with St. John's church in this city for the past five years, has through his untiring efforts built the church to its present high standing, and although he has not as yet answered the call, the offer is a flattering one that he may well feel proud of, coming as it does from so large a congregation and from so promising a field. Many Janesville friends of the popular pastor will earnestly hope that he will decide to remain in the Bower City, where his work has been so effective.

THE COTTON MILL STRIKE.

The Recorder of this morning publishes the following:

EDITOR RECORDER: The Gazette of this evening devotes a column of its valuable space to an editorial on the cotton mill strike. There are two sides to every question and one man is as good as another. We should think that over three hundred people should be allowed to express themselves as this used to be a free country. We do not want to dictate to the company and we do not think of doing so. All that we desire to ask for is our rights. We were promised when the ten per cent cut was made that we would get it back when trade revived again. We all know that it has revived. In the eastern mills the old scale of wages has been restored and the same condition of affairs exists all over the country. We are well aware that in the east the mills are supplied with better machinery, but the employees do not work seventy hours a week. Their hours are fifty-eight and that of the pauper labor in Europe is but fifty-six hours, with one-half the number of machines to work that the hands are compelled to work here. We know that democracy is responsible for this revival of trade. We are willing to submit to anything that is just and right. When we compare the difference in hours we are paid twenty-five per cent less than the eastern price list. The day wage employees of this company are working twelve hours a week over time for the company's benefit.

Now The Gazette ought to come to time and quit its monkeying. We are quite willing to arbitrate the matter and will stand by whatever is right.

THE COMMITTEE.

Janesville, May 21, 1895.
 The Gazette did not know that the strike was a political one. The Gazette did not know that any "monkeying" had been done. The Gazette knows there are two sides to every question, and supposes there are two sides to this one. The Gazette has no more interest in the welfare of the cotton company than it has in any other manufacturing concern that all must admit is a benefit to the city. The Gazette has no more interest in the cotton factory employees than it has in any other body of good citizens whose earnings go to help the city and its merchants. The Gazette wishes both sides in the controversy to get their just dues, and espouses the cause of neither side, because they alone know how to settle their differences. The managers say they cannot pay the wages claimed. The employees say the managers can pay the wages claimed. Their positions are, therefore diametrically opposite. What The Gazette wants is to see the mill running on a basis of justice to all. The committee say they are ready to arbitrate. The Gazette has not said they were not. They say they ought to be allowed to express their views, a privilege that The Gazette has not denied them. They say they do not wish to dictate. The Gazette has not said they did.

The Gazette has published such calls for meetings and communications as the strikers desired, without alteration and without favor. The Gazette has also published the news in relation to the affair, also without favor. All The Gazette wants to see is the strike ended and the mills running to the satisfaction of all concerned.

Do the strikers want more than that?

Do the managers want more than that?

Is that "monkeying?"

In the expressing of that desire, which is evidently the same as that of both managers and employees, has The Gazette done anything that necessitates their "coming to time?"

The Gazette is willing to leave the matter to the intelligence of the committee and the public.

THE TOWN TALK OF A DAY.

THEO. W. GOLDIN, PRES. BOARD OF EDUCATION: "I have examined the new cyclopedia of D. Appleton & Co. and have no hesitation in saying that I find it clear, concise, and yet reasonably full in its treatment of the many subjects handled. As a work for the student it compares more than favorably with any other publication along the same line I have examined." Examine it at King & Skelly's book store.

We quote facts not fancies. We have the goods to back us. We always try to tell the truth, but we do not ask you to believe us this time. Come down and see our goods. They are "talkers." Do We Say Too Much?

Sometimes we think we do, but the tendency of human nature is to talk about anything when they think it something good. We never mention an article unless we know to a positive certainty that it will benefit the people in general. Our business is increasing daily. Not a single month but shows an advance over the corresponding month of a year ago, some of them 50 per cent more. Why shouldn't we feel like talking? We know it's because we put out the bargains. NEW BUSINESS CLUB MAY BE ORGANIZED

LOCAL MEN PLAN A SUCCESSOR
TO THE OLD ASSOCIATION.

It's Death Came Last Night and The Property Will Be Sold at Auction Either in Bulk or in Detail On Monday Morning and The Affairs Wound Up.

The Janesville Business Men's Association died a natural death last night, but from the ashes of the defunct organization a new club may arise that will be more effective than the old one was. There are many business men in Janesville who think that some such step should be taken, as it is not in keeping with the enterprise of as good a town as this, that there should be no organization by which a stranger might be entertained when he wished to locate a factory in Janesville or where public questions could be talked over by those most benefited by their adoption or rejection. Just what will come of the agitation is, of course, not yet known, but there is a likelihood that a new organization will be effected. At the meeting last night it was decided to close out all of the property of the association to the best possible advantage, pay all the outstanding bills, surrender the charter to the state and distribute all the net proceeds among the members in good standing.

The board of directors was instructed to meet this morning and make an inventory of the property of the association, which they did. The rooms will be open Saturday morning for the inspection of the furnishings, etc., and the property will be sold at auction, either in bulk or detail on Monday morning. In the meantime all persons having bills against the association are requested to make them out and hand them to the secretary, Frank C. Haselton.

A cashmere sale of \$25,000 worth of men's and boys' clothing was commenced by Frank Baack this morning. He is determined to sell at prices and quality will do it. BOY BURGLAR SENT TO REFORM SCHOOL

YOUTHFUL HUMBERT CRAWFORD ADMITS HIS CRIME.

Confessed That He Robbed the Store of The Evansville Mercantile Association of Goods Valued at \$33 On May 7—Flower Thieves at Work—Board Bills Left Unpaid.

Humbert Crawford, of Evansville, was taken to the Industrial School for Boys at Waukesha this afternoon by Sheriff Appley, to remain until he reaches his majority. Young Crawford is only seventeen years old, yet he is a very bad boy. He was arraigned in the municipal court this morning charged with burglarizing the Evansville Mercantile association's store on the night of May 7, taking therefrom about twenty-three dollars' worth of goods, mostly cutlery. He cut one of the panels out of the door, and thus was able to reach and unbolt the door from the inside. He confessed his guilt, and Judge Phelps sent him to the Industrial School until he becomes twenty-one years of age.

His father, an aged and invalid veteran of the war testified that his son had been a very good boy until a year and a half ago, that up to that time he had attended the public school regularly. Then he deserted the law's services on the farm, but the boy, instead, took a different turn of mind and he had gone west a number of times and his people were compelled to send for him. The officers are of the opinion that the boy did not behave as a good boy should, even when away from home in the west, but of this nothing definite is known.

Flower Thieves at Work. Power stealing seems to be the latest fad among some Second Ward people and the habit has become so fixed that the people who reside on Milton Avenue in the vicinity of Grand and Sophia streets made a complaint to the police this morning. For some time past these thieves have been having things all their own way, the people keeping quiet in the hopes that sooner or later the guilty parties would be caught. An oil lamp in this vicinity is first extinguished, while under the cover of darkness they pull plants and pluck flowers from neighborly beds at their leisure. One of the residents whose beds have been liberally pilfered, set up the other night and detected the thieves in the act. The parties are well known to the police and unless a "turn for the better" takes place, arrests may be looked for any time.

Failed to Pay Board Bills. Two Janesville hotels are said to be "on" board bills as the result of extending credit to a tailor and a newspaper man. The tailor, it is said, came to town well recommended and put up at Hot's hotel, he got things in a local shop. Nine days passed with the gentleman on the credit at the table three times a day, but on the tenth day he did not show up. In the meantime he had drawn his pay and gone to Chicago "after his truck" but as he has not returned the hotel man thinks perhaps someone had moved the truck since the tailor left and he wasn't able to find it as soon as he expected.

The newspaper man was a bit more philanthropic for he left the Park house in arrears for six days' accommodation.

George Welch in the Tolls. George Welch went down to Beloit on Monday intending to obtain employment in one of the foundries there, but he could not run the gauntlet of the Lima City milk houses, consequently he fell in a stupor and then into the hands of the police. Yesterday Police Justice Booth, before whom Welch was arraigned, charged with drunkenness, sentenced him to five days in the county jail. George was brought up last evening by Marshal Appley.

William Lepper, also of Janesville, got fall at Beloit on "circus" day, and he too is serving five days in consequence.

A DAY'S NEWS IN THE TOWN. The Chicago Literary Society held the last meeting of the season last evening at the home of Miss Bertha Sayles, 104 South Franklin street.

During the evening a number of the members gave readings on different subjects. A. E. Matheron's talk on George Eliot was much enjoyed by those present.

After a number of applications for the janitorship of the Arrow Celling Club house had been received the committee appointed E. W. Powers, who was formerly connected with the Vienna Cafe restaurant.

COMPANIES CUTTING EXPENSES Some Express and Railroad Work Is Now Doubled Up.

Ever since the hard times came on, the different railroads claim that either the express messenger or the baggage man ought to do the work of both. The business in the baggage and express line is so light that there is no reason why this plan could not be carried out, especially so with short runs. A number of the eastern roads have adopted this method, and say that it is a great saving to both companies although it throws a great many men out of work. A number of short runs out of this city are now worked on this plan, and have been for some time past.

TWO BULLS IN A PITCHED BATTLE

Fence Torn Down At The Stock Yards Where They Fought.

Two bulls had a desperate fight in the Janesville stock yards yesterday, and for awhile it was a battle royal. Dawson & Charlton owned the animals, one being bought near Milton, while the other hailed from Port Atkinson. No sooner had they both been liberated, than the Port Atkinson animal shook his head and belittled defiance to the Milton representative. Then war ensued and the battle lasted until one of the animals forced the other through the fence. Their fighting days are over, however, for both were shipped to the Chicago market last night.

STREET PEDDLERS WILL QUIT.

New License Regulation Takes The Profit From Their Business.

The new peddlers' license regulation which has just gone into effect has cut into the fruit peddlers from selling on the streets, as they say they cannot afford to pay the fees. They complained to the police this morning that they were left with a number of boxes of oranges on their hands which will be a total loss to them. The police told them to consult Constable Latta, which they did in the hope that they would be allowed to sell what fruit they have on hand and then go out of business.

NEW WELL IS DOWN FORTY FEET

Now Will Keep the Reservoir Open and Provide Life Reserve.

The new Artesian well of the Janesville Water Company on South Jackson street at the head of Oak, is progressing downward slowly. The tubing is now down about forty feet, the drill being in sand and gravel.

It is said the flow of water from the new well will be direct into the reservoir and thence into the river. It is estimated that this will be sufficient to keep the reservoir full at all times, and furnish an abundant supply in case of a heavy fire.

BLIVEN WANTS PAY FOR BEING HURT

ALBION MAN SUES THE ST. PAUL COMPANY.

Claims That He Was Run Down By a Box Car at Edgerton and Sustained Injuries For Which He Should Get \$15,000—Case Will Be Tried Before Judge Bennett.

Anson Bliven of Albion, Dane county, has brought suit against the Chicago, Milwaukee & St. Paul Railway Company to recover \$15,000 personal damages, and has secured the services of Attorneys Sutherland & Nold of this city, and George H. Metcalfe of Edgerton, to conduct his case in the Rock county circuit court, which will be tried at the November term.

The plaintiff in this case resides in Albion, Dane county. On February 12, last, Mr. Bliven was in Edgerton, and in the evening started for his home, he driving a team of horses attached to a sleigh. The roadway crossed the railway tracks in Edgerton, the sidetracks near the crossings of the highway and railway, being well filled with freight cars, although the crossing was clear. Without warning, he claims, he approached the crossing, and when he was on the main track of the railway he was struck by a freight car which was being backed across the track, and which had been moved from between other cars unseen by him and without warning to any one on the highway. His left arm was broken in this crash, and today he is wearing a plaster cast around this break. Bad as he was bruised about the head and body, and received internal injuries, which he claims and believes will be permanent. His horses and sleigh were also injured. It is estimated that several attempts have been made at a settlement previous to going into court, but the parties so far have been unable to agree upon the amount of damages.

DOGS MADE THE NIGHT LIVELY.

Dr. George Christensen Has a Nighttime Experience With Canines.

A telephone message called Dr. George Christensen to Emerald Grove, and on the return trip he had a lively experience. On a small piece of land, below the Paul farm, in Spring Brook, a number of gypsies are camped. Their wagons are scattered along the road and they seemed to possess an unlimited number of dogs. As the doctor approached the outfit four of the dogs rushed at the horse, frightening the animal so he ran over a four-foot embankment, and landed against the fence. Luckily no damage was done, but the accident might have been a serious one just as well is not.

PRESCIENCE.

The new moon hung in the sky.
The sun was low in the west,
And my betrothed and I
In the churchyard paused to rest.
Happy maid and lover,
Dreaming the old dream over.
The light winds wandered by,
And robins chirped from the nest.

And, lo, in the meadow sweet
Was the grave of a little child,
With a crumbling stone at the foot
And the ivy running wild.
Tangled ivy and clover
Folding it over and over.
Close to my sweetheart's feet
Was the little mound up piled.

Stricken with nameless fears
She shrank and clung to me,
And her eyes were filled with tears
For a sorrow I did not see.
Lightly the winds were blowing,
Softly her tears were flowing,
Tears for the unknown year
And a sorrow that was to be.

—T. B. ALLEN.

A FRESH PROFESSOR.

I was an undergraduate and he was a don of Exham college, Oxford. We both bore the same name—Unwin Jones. Why Dame Fate should have gifted two such antitheses with similar names, why she should have brought us to one and the same college is inscrutable. I do not upbraid. I thank her from the bottom of my heart. I forgot the frayed shirts, "dickies" and antediluvian collars of Don Jones that the laundress fathered on me. I do not regret my vines, but not the hills therefore, that went to his cellar instead of to my humble cupboard. I forgive the torn envelopes in ladies' hands marked "not for Professor Jones"—everything, and why?

It was a sunny afternoon in the merry month of May as I returned at 5 o'clock, in flannels and a blazer, from an hour's fagging at the cricket nets, and tripped up the stairs of my "digs," that overlooked the dear old college gardens, whistling "Oh, Phyllis Mine!" I burst open the door, and—"Are visions about?" came the lightning thought, as I saw, seated in the armchair by my window, gazing out on the glories of the horse chestnuts opposite, one of the—no! the (vide "subsequent events")—most charming little girls I have ever seen! By the side of the armchair was a lecture note book, and what I knew only too well to be Herr Crammer's "Latin Prose." She rose, bowed deferentially, and somewhat nervously began: "Oh, Professor Jones, I am so sorry I am late! Mr. Boothby of Canaliel said he hadn't time to look over my prose, and asked me to bring it to you at 4:45, and said, as you sometimes took his work, you would correct it for me."

I saw it all, or rather I saw nothing but her—slim, petite, with stray strands of nut brown hair peeping from beneath a dainty straw hat trimmed with marguerites. The porter had directed her to my rooms instead of to those of the professor (I gave him a sovereign at the end of term). One more to the long list of mistaken identities, but worth them all. Should I undecieve her? And I thought of the dryadist Jones. He was the sea monster, I was Perseus, and she was—Andromeda. "A thousand times no," said my heart. I shall be a professor for 30 minutes! With all of him I could muster, and re-enforced by my gold rimmed pince nez—

"Ah!—let me see, what—or—is your name?"

"Ethel Mayner," said Ethel-red, for the rosy hue had mounted to her cheek, as it did to Virgil's Venus. "I'm—I'm one of Mr. Boothby's 'extension' pupils."

"Of course," I said and looked professorially at a card I picked up, "here's your name."

It was a card of the XL's summer term fixtures. Inwardly I vowed it would be more "extension" than "lecture." But did she think I was a professor? Could she not see my chin, innocent of a razor—the galaxy of London actresses on my mantelpiece, the hunting sketches, my bat on the table, the siphons check by jowl with McTavish's "best"? Did professors play banjos and whistle "Oh, Phyllis Mine," as they bounded up to unravel the mysteries of "Oratio Obliqua" with fair pupils? I stifled a snarl and lived only in the present and the sunshine of—Ethel. She resumed her seat, and I rang the bell. Up came the landlady.

"Bring up tea for two, Mrs. Grabs," I said, "and send out for the best cake Boffins have in the show—I—er—mean the premises."

"Oh, professor," she interposed, "please don't trouble about tea for me."

"Madam," I rejoined, "we cannot discuss the position of Caesar in winter quarters or that plebeian bricklayer Balbus without some light refreshment. Come, let us commence. Bring your chair up to the table." (Oh, how brutal of me! And I would have carried it miles for her dear sake, but I was a professor.) And she drew her chair so close to mine that I could almost—"Page 21," I grunted, with a beating heart, for I knew that the sentences were plain sailing till about page 30.

"Oh, no," she said, "I'm at page 210!"

My heart sank, at least such of it as was not in my mouth. How could a twice plowed fresher essay the snares and pitfalls of page 210?

"The passage begins," she continued, "'The rotation of crops' and ends at 'rustic simplicity.'"

It was hopeless. She, Ethel-well-read, was an "Honors" candidate, and I, the unread-y, nothing but a manufacturer of "howlers" and classical faux pas.

"Er—er, ah—let me see, er—"

I gasped, and her deep brown eyes, with a look of incipient perplexity, met mine. Her hands were toying with the handle of my bat. Would it had been me!

"I used the word rotatio," she said. "I hope it's not too doggy?"

"Oh, no," I sighed, "it's an excellent word—used by Bohn, I believe!"

How could any word she used be wrong? I thought only of the miserable Don Jones from whom I had saved her.

Then Mrs. Grabs came in with the tea and cake.

"Ethel, a—er—Miss Mayner, I beg your pardon! Do let me pour you out a cup of tea!"

The emphasis was more undergraduate than professorial, the work of impulse rather than discretion, but prudence was out when beauty was in.

"Oh, thank you," she smiled. "You are a dear good old man!" (I had just turned 18. I good? A hypocrite in a fool's paradise!) "But we don't seem to be getting on very quickly?" she queried. (Oh, when were prose and poetry so closely allied?) "Crops, are they feminine or masculine?" she asked.

"Ahem—er—it depends on the kind, you know!" I replied.

"Sages, is that the correct word?" And I, smitten by love and forgetful of my Latin dictionary, told her it meant a soldier!

She sipped her tea and tried to suppress a laugh. It was the "soldier" that did it, and amidst her emotion a little rosebud fell from her breast on to Herr Crammer's "Latin Prose."

"You funny man!" she rippled. It would have been cruelty from any one else in the world, but from Ethel it was sweetness and joy. I drew my chair closer to hers. My left hand strayed toward that cricket bat. A magnetic thrill was generating. I looked and thought only of her dream face, her eyes, where the merry twinkle of the "soldier" capper was just dying away, and I was about to—when a knock came at the door, then Mrs. Grabs, and her words fell on my ears like molten lead:

"If you please, sir, the porter says as Professor Jones says, as the young lady what 'e was expecting at 5 o'clock 'asn't arrove, he wants you at once with 'Steps For Beginners.'"

I burst from the room, fled like a hunted slave over to the common room and fell into an armchair. My brain was in a mad whirl, love and ignominy striving with deception and remorse. Ethel! Love! She knew all—that I was a "Steps For Beginners" man—Ethel, who was at page 210, and "the rotation of crops!"

When I went back to my rooms at 6:30, dazed and wracked with love, the rosebud was still on Crammer's "Prose," as it fell, and a note—a note in a dainty little hand—Ethel's!

Your tea and cake were excellent. How I wish I could say the same of your prose! I left the bat for you, if you care for it, and I stole your "list of pupils"—cricket fixtures. We may never meet again, professor. Yours, Ethel.

But we did, and Mrs. Unwin-Jones always laughs at "Steps For Beginners" when she dusts it.—Sketch.

Nervous debility and loss of manly power result from bad habits, contracted by the young through ignorance of their ruinous consequences. Low spirits, melancholia, impaired memory, morose, or irritable temper, fear of impending calamity and a thousand and one derangements of body and mind, result from such pernicious practices. All these are permanently cured by improved methods of treatment without the patient leaving home.

In the Past

A good many jokes have been elaborated—at the expense of druggist—on account of his supposed large profits. The above little clipping from the great New York Herald may be taken as an indication that the press and the public are beginning to see the question in another light. We could write volumes on the subject, but perhaps you would not wade through them. This, however we will assert here:—The drug store is the proper place to get anything in the drug line, and we can prove that our prices are as low and our goods as good as anywhere else in town. ALL FAMILIES WANT THE GAZETTE PRIZE

BABY CONTEST IS GETTING VERY SPIRITED.

Five Hundred Dollars Worth of Building and Loan Association Stock Is a Nice Nest Egg For a Three Year Old and the Vote Between Several Contestants is Very Close.

The time is not far distant now, when some Janesville baby will get The Gazette's \$500 prize. The ballot closes June 1, and then the prize will be awarded. Five hundred dollars is a nice sum for a baby to begin life with. Put it out at interest and when the babe becomes the man or woman, enough cash for a start in life is available.

Do not think that you can sit down and wait for that \$500 to come to your home. The ballots are piling up rapidly, for, naturally enough, \$500 is enough to encourage every father and mother in Janesville to strive for that prize for their "ownest own." Competition is getting strong as the time begins to narrow down and in this case the old adage, "everything comes to he who waits" is far from true. It should be "everything comes to he who hustles." The Gazette has been asked many times to publish the vote as it stands, but this would not be fair. It would tell Brown that Jones was leading him, and The Gazette wishes to treat all hands alike. However, the count is close between several contestants up to date, and, like everything else, the "early bird," etc., applies.

The Gazette's offer is this: The baby receiving the highest number of votes will be presented with \$500 worth of stock in the Rock County Building, Loan & Savings Association.

It will buy an education.

It will buy a building lot.

It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened on May 1st and will remain open until June 1.

The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock.

There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Out the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

—ONE VOTE FOR—

Of Janesville, Wis.

BETTER THAN A GOLD MINE.

Last month I cleared, after paying all expenses, \$235.88; the month before \$185.86 and have at the same time attended to my regular business. I believe any one, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

A Hop, Skip and Jump.

An athletic caper of this sort would scarcely be considered indecorous in one, even of mature age and sedate habits, impelled thereto by excess of joy on recovering his digestion through the instrumentality of Hostetter's Stomach Bitters, foremost among remedies for dyspepsia, biliousness and constipation, a trio of evils usually found in conjunction with each other. As the stomach recovers its tone, and the gastric juices are secreted in healthful plenitude through the agency of this superb restorative, nerve tranquility, appetite and sleep return, the body gains in substance and the muscles in vigor. For the prevention and cure of malarious, rheumatic and kidney trouble the Bitters is a most direct and thoroughgoing medicinal agent. Its effects are speedily felt and comprehensive.

Dr. H. R. Fish of Gravois Mills, Mo., a practicing physician of many years experience, writes: De Witt's Witch Hazel Salve has no equal for indolent sores, scalds and burns. It stops pain instantly, heals a burn quickly and leaves no scar. C. D. Stevens.

Darwin Didn't Like Shakespeare.

In a recent lecture, Mr. Leslie Stephens said that Darwin had confessed to him that Shakespeare had no charm for him, and that he always liked a novel that had a pretty woman in it and ended happily. This was not a peculiarity of Darwin alone. Each person had his own fancies as regarded books and it was a true saying that "all books were good for some one."

Our patrons will find De Witt's Little Early Risers, a safe and reliable remedy for constipation, dyspepsia and liver complaints. C. D. Stevens.
